

Streamline more of your day with real-time reliability

The latest cloud-based features in QuickBooks Online give you additional ways to save time and reduce errors.

Here's what's new:

Pay & get paid

Integrated bill pay

Schedule or make one-time payments for expenses like rent, merchandise, utilities, and taxes, so you can record bills and pay them, all in QuickBooks.¹

Create payment links

Whether you're at the invoice stage or not, you can collect payment from customers by easily creating and sharing a payment link.²

QuickBooks Checking

Get a holistic view of where your money stands, save for future expenses, and get faster access to funds with a business bank account designed for small business owners.³

QuickBooks and Intuit are a technology company, not a bank. Banking services provided by our partner, Green Dot Bank.³

Add data & visibility

Import bank statements

Make it easy to reconcile your accounts by connecting your bank account and comparing your statement data at any time.¹

Keep an eye on cash flow

Use reports and projections to get a clear look at your current and future business finances, so you can make more informed decisions.¹

Track project profitability

See project profitability at a glance with clear dashboards and reports, and easily track labor costs, payroll, and expenses with job costing.¹

Customize your dashboard

Reorder and resize the Business Owner insight widgets on your dashboard, so you can work the way you want.

Sync with customers

Add eBay

Connect your eBay seller account to QuickBooks and use the eBay Managed Payments app to automatically import sales transactions and eBay expenses.⁴

Contact customers & leads with Mailchimp

Put your accounting data to work with Mailchimp's marketing tools to increase the impact of your marketing campaigns, speed up sales, and accelerate business growth.

Even more flexible solutions to help you work smarter

The latest updates in QuickBooks Online Advanced give you more tools to streamline your business and more insights to drive it forward.

Here's what's new:

Add data & visibility

Spreadsheet sync

Connect your business data directly to Excel to create customized reports and add or edit large batches of data, with the confidence that your information is accurate.

Employee expense management

Have your team submit expenses to QuickBooks, so you can easily review and store all your expense data, records, and approval history in one place.

Bill & purchase order approval workflows

Save time, delegate with confidence, and maintain a digital audit trail by customizing your own bill and purchase order approval workflows in QuickBooks.

Create reports

Use pivot tables

Quickly and easily summarize key data across any category in your custom reports with built-in pivot tables—right inside QuickBooks.

Performance center

Spot key insights at a glance and leverage essential reports plus built-in and customizable charts to track vital KPIs from across your business.

Custom report builder

Get deeper, more meaningful insights when you choose the fields, KPIs, and transaction data to track. Plus, save any custom report to use again.

Boost productivity

Batch transactions

Get more done in less time—import, create, send, and process hundreds of invoices, bills, checks, and expenses at once.

Custom reminders

Use any number of conditions to set up automated reminders that take the form of tasks, customer emails, internal emails, or push notifications.

Custom user roles

Control access to sensitive data and make it easy to delegate tasks by assigning custom roles to each user. Plus, add time-, report- & expense-only users at no extra cost.

Backup & restore

QuickBooks frequently saves your data in the background, so you can easily restore your books to a specific point in time if needed. You can also undo unwanted changes to vendors, customers, settings, and other information.

Premium apps

Work your way with your pick of seamless app integrations built just for QuickBooks Online Advanced, like Salesforce Connector, HubSpot, and Centage Planning Maestro.¹
