Consider a more powerful QuickBooks

QuickBooks Online Advanced has additional flexible tools to streamline your business and more insights to drive it forward.

Enhance reporting

- Custom report builder
- Enhanced custom fields
- Performance center
- Built-in pivot tables

Boost productivity

- Import invoices, budgets
- Batch transactions
- Spreadsheet sync with Excel

Data & collaboration

- Custom user roles
- Automated workflows, tasks, reminders
- Online backup & restore

Integrate the apps you already use

With premium apps available in QuickBooks Online Advanced, you can connect with best-in-class apps to see it all—and do it all—right in QuickBooks.

Streamline the day-to-day

Simplify your bill pay process: [Bill.com](#)

- Sync new bills and sent payments with QuickBooks automatically, to keep your books accurate and up-to-date
- Get more financial control by setting up workflows and routing rules for faster, easier approvals from any device
- Pay and track domestic and international bills with estimated delivery times and keep an audit trail
- Collaborate with your team while maintaining a clear separation of duties with roles like approvers, data entry clerks, payers, and auditors

Manage customized forms & e-signatures: [PandaDoc](#)

- Customize and design your sales forms, like estimates, with easy-to-use drag and drop templates that allow you to add e-signatures and edit fields
- Show off your brand and better connect with customers with the ability to add your logo, fonts, videos, and other interactive elements to your template
- Stay up to speed with notifications and status updates when customers view, download, or sign your documents

Add electronic signatures: [DocuSign eSignature Connector](#)

- Securely send estimates to clients for electronic signature directly inside QuickBooks Online Advanced, to close deals faster
- Streamline your sales cycle by automating estimate acceptance and get from quote to cash faster
- Get notified on the status of your documents so you can follow up with next steps immediately

While we review each app in the QuickBooks App Store, we can't make guarantees as to how they'll work for your business. Please be sure to review carefully before connecting any apps to QuickBooks. Apps may require a third-party subscription. Third party applications available on apps.com. Subject to additional terms, conditions, and fees.

Data analysis

Make forecasts, budgets, reports: [Centage Planning Maestro](#)

- Plan and forecast accurately with built-in intelligence that automatically pulls actuals, creating an accurate budget quickly and easily
- Instantly create unlimited what-if scenarios to test possible impact so you can make informed and confident decisions to take calculated risks and capitalize on opportunities
- Respond quickly with useful insights from real-time data to help you adapt to change quickly and share critical information with your team

Connect with customers

Integrate CRM capabilities: [Salesforce Connector](#)

- Sync with QuickBooks for consistent account, invoice, and payment information, and automate your quote-to-cash process to help your sales and finance teams work better together
- Automate custom reminders for invoices due, and auto-reconcile payments in both Salesforce and QuickBooks Online Advanced
- Get a 360-degree view of important Salesforce and QuickBooks data in real time, for complete business and cash flow insights all in one place

Simplify marketing & sales: [Hubspot](#)

- Automatically store every interaction, from first marketing interaction to satisfied customer, in a tidy timeline
- Remove friction from your sales process with Sales Hub, featuring sales reporting, rep engagement tools, and CPQ
- Attract more visitors and convert more leads with a hub of content tools, search, social and paid media, and more
- Create QuickBooks invoices on HubSpot deal records and share invoices with a URL
- Associate tax codes with invoice line items and use multiple-currency syncing when creating invoices
- Create automated flows moving invoices from draft to review and approval between HubSpot and QuickBooks

Professional Services

Legal billing & reporting: [LeanLaw](#)

- Add legal customization in QuickBooks for timekeeping, invoicing, reporting and trust accounting
- Track trust accounting, client reports, billable hours, AR aging, compensation/revenue, expenses, origination/contingency reporting
- Record time the way you prefer, with web, desktop, mobile, and calendar-view timers, or add someone else's time using bulk time entry tools
- Create smooth, professional invoicing workflows for pre-bill review, fixed and hybrid fees, LEDES invoices, and batch invoice payments (including those from trust accounts)
